

COURSE: SPAIN'S ECONOMY HIGHLIGHTS

Language	English
Level of Spanish required	Not required
Hours	45h
Credits	6 ECTS

Course description

The subject focuses on the main characteristics of Spain's economy. Centered not only in the current status of the economy but also in the historical evolution of the country from 1939, the course aims to be a general overview of what makes and has conditioned Spain's economic growth and what has set the particularities of Spain's current economic situation.

Methodology

After presentation of the subject, the students will be encouraged to discuss and try to establish comparisons with their countries' characteristics.

Assessment

Class assistance and participation: 20%

Mid-term exam: 40%

Final exam: 40%

At the middle of course students must take a written exam with a series of multiple-choice questions and one open question. Some students may choose to make an oral presentation in class, whose topic will be first discussed with the professor.
